

### Intended Use

Multiple fixing of profiles for external thermal insulation composite systems (ETICS) according to ETAG 004 or prefabricated units for external wall insulation (Veture Kits) according to ETAG 017, in concrete and masonry

### Legend

- $h_{ef}$  = effective anchorage depth
- $h_1$  = depth of drill hole in base material
- $h$  = thickness of base material
- $t_{tol}$  = thickness of equalizing and/or non-load-bearing layer
- $t_{profile}$  = thickness of profile
- $t_{fix}$  = thickness of fixture ( $t_{tol} + t_{profile}$ )
